St. Mary's Blankets-Ten Cases of Them

Wouldn't have much to talk about if these were simply the usual run of Country Blankets.

This, they are not, as an inspection and comparison will make plain the fact that the St. Mary's Blankets run larger throughout every size—none being skimped; are made of finer grades of specially prepared wool, possess a freedom from grease and burrs not to be found in others; display a superiority of finish that augments the natural softness of the fleeces employed, and exhibit a diversity of styles unlooked for in Country Blankets, the delicately tinted borders of which are absolutely unfadable.

In short the—GENUINE ST. MARY'S BLANKETS
Embody the same of excellence—the essence of perfection—befitting productions of the most modern and improved machinery;
Blankets, the fame and sale of which extends even beyond the borders of the United States.

So when we were offered the exclusive sale in Wheeling of these best of bad coverings, we quickly availed ourselves of the oppertunity, and now offer them to you, reader, at

Prices, New and Revised Prices!

Which we feel confident will be no higher than those charged for inferior makes.

He started on a brisk trot, with his prisoners following. They had to hustle to keep up, and at times were several rods in the rear. The officer would turn and look back for his men occasionally. They caught the train, and the men who seemed so anxious to get to jail were accommodated. Clairsville train had pulled out, and as get to jail were accommodated.
